

Print out all parts and paint them in your favorite colors, before cutting them out.

Glue the page containing the building body onto a piece of thick paper.

Cut out all parts with scissors.

Use a ruler and a wooden stick to scratch the black dashed lines, this will make them fold easier.

Add all parts to the body step by step. The instructions on the next page will help you to do so. Afterwards, decorate your building!

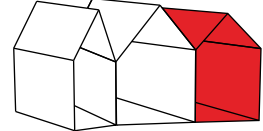

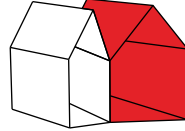

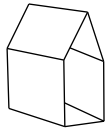

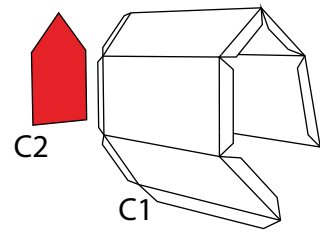

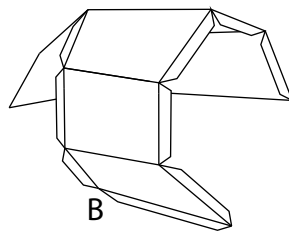

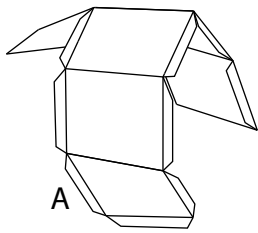

Frankfurt City Hall (Römer)

CRAFTING MODEL

The creation of this crafting set
was made possible by:

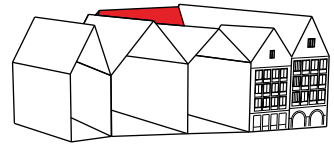

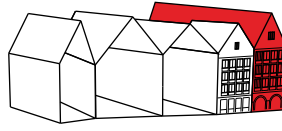

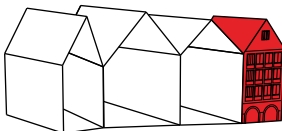

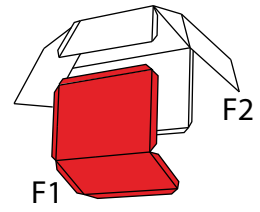

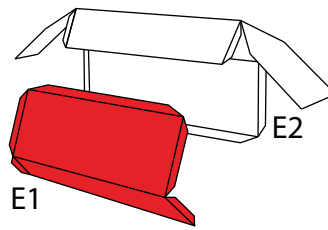

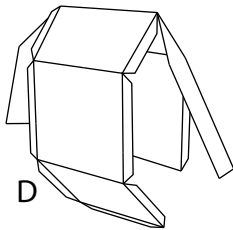

Start with the building on the far left. Fold it and stick it.

Fold and stick the second left building to the previous one.

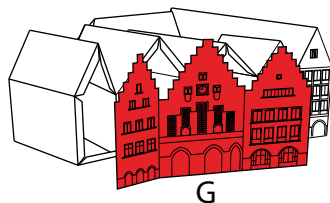

Then fold and stick the next building to the two previous ones.

Now fold and connect the 4th building to the ones just assembled.

Complete the line of buildings by folding and attaching the last building.

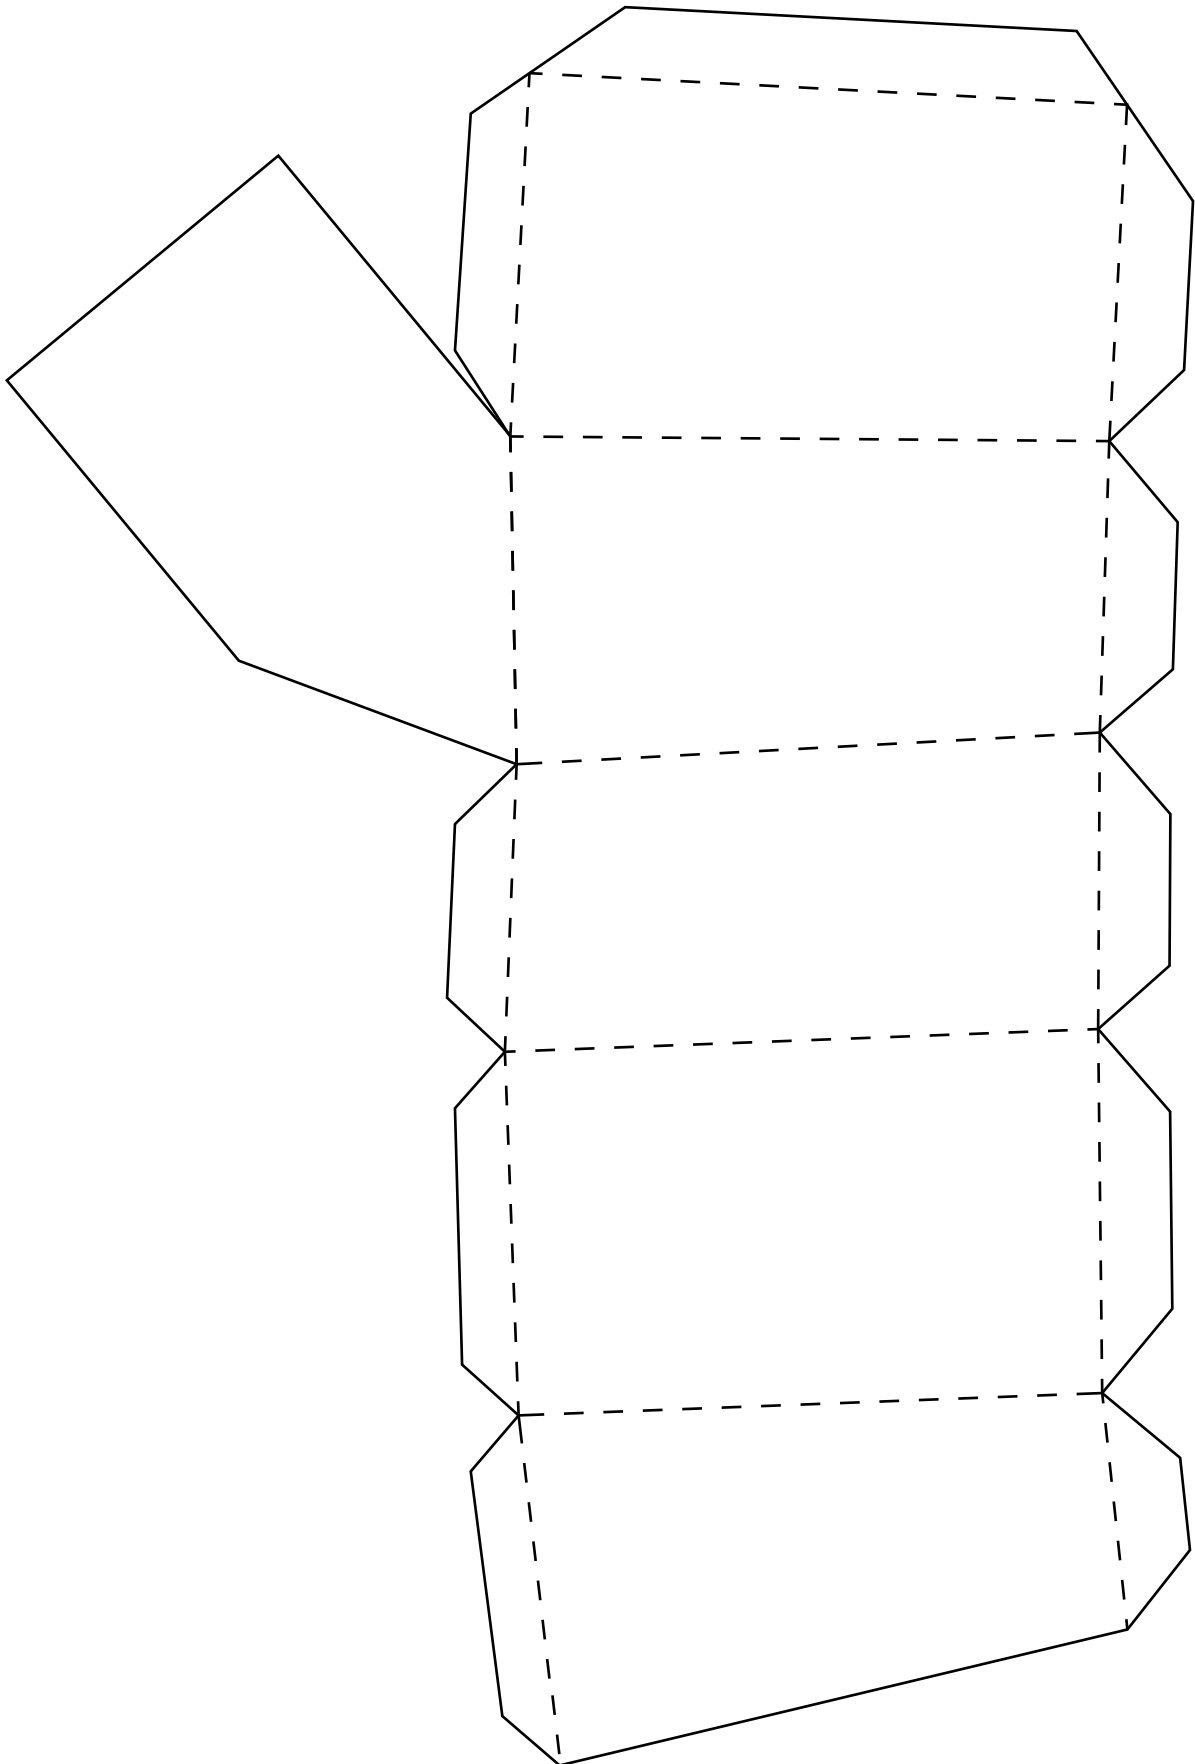

Then fold and stick the back building.

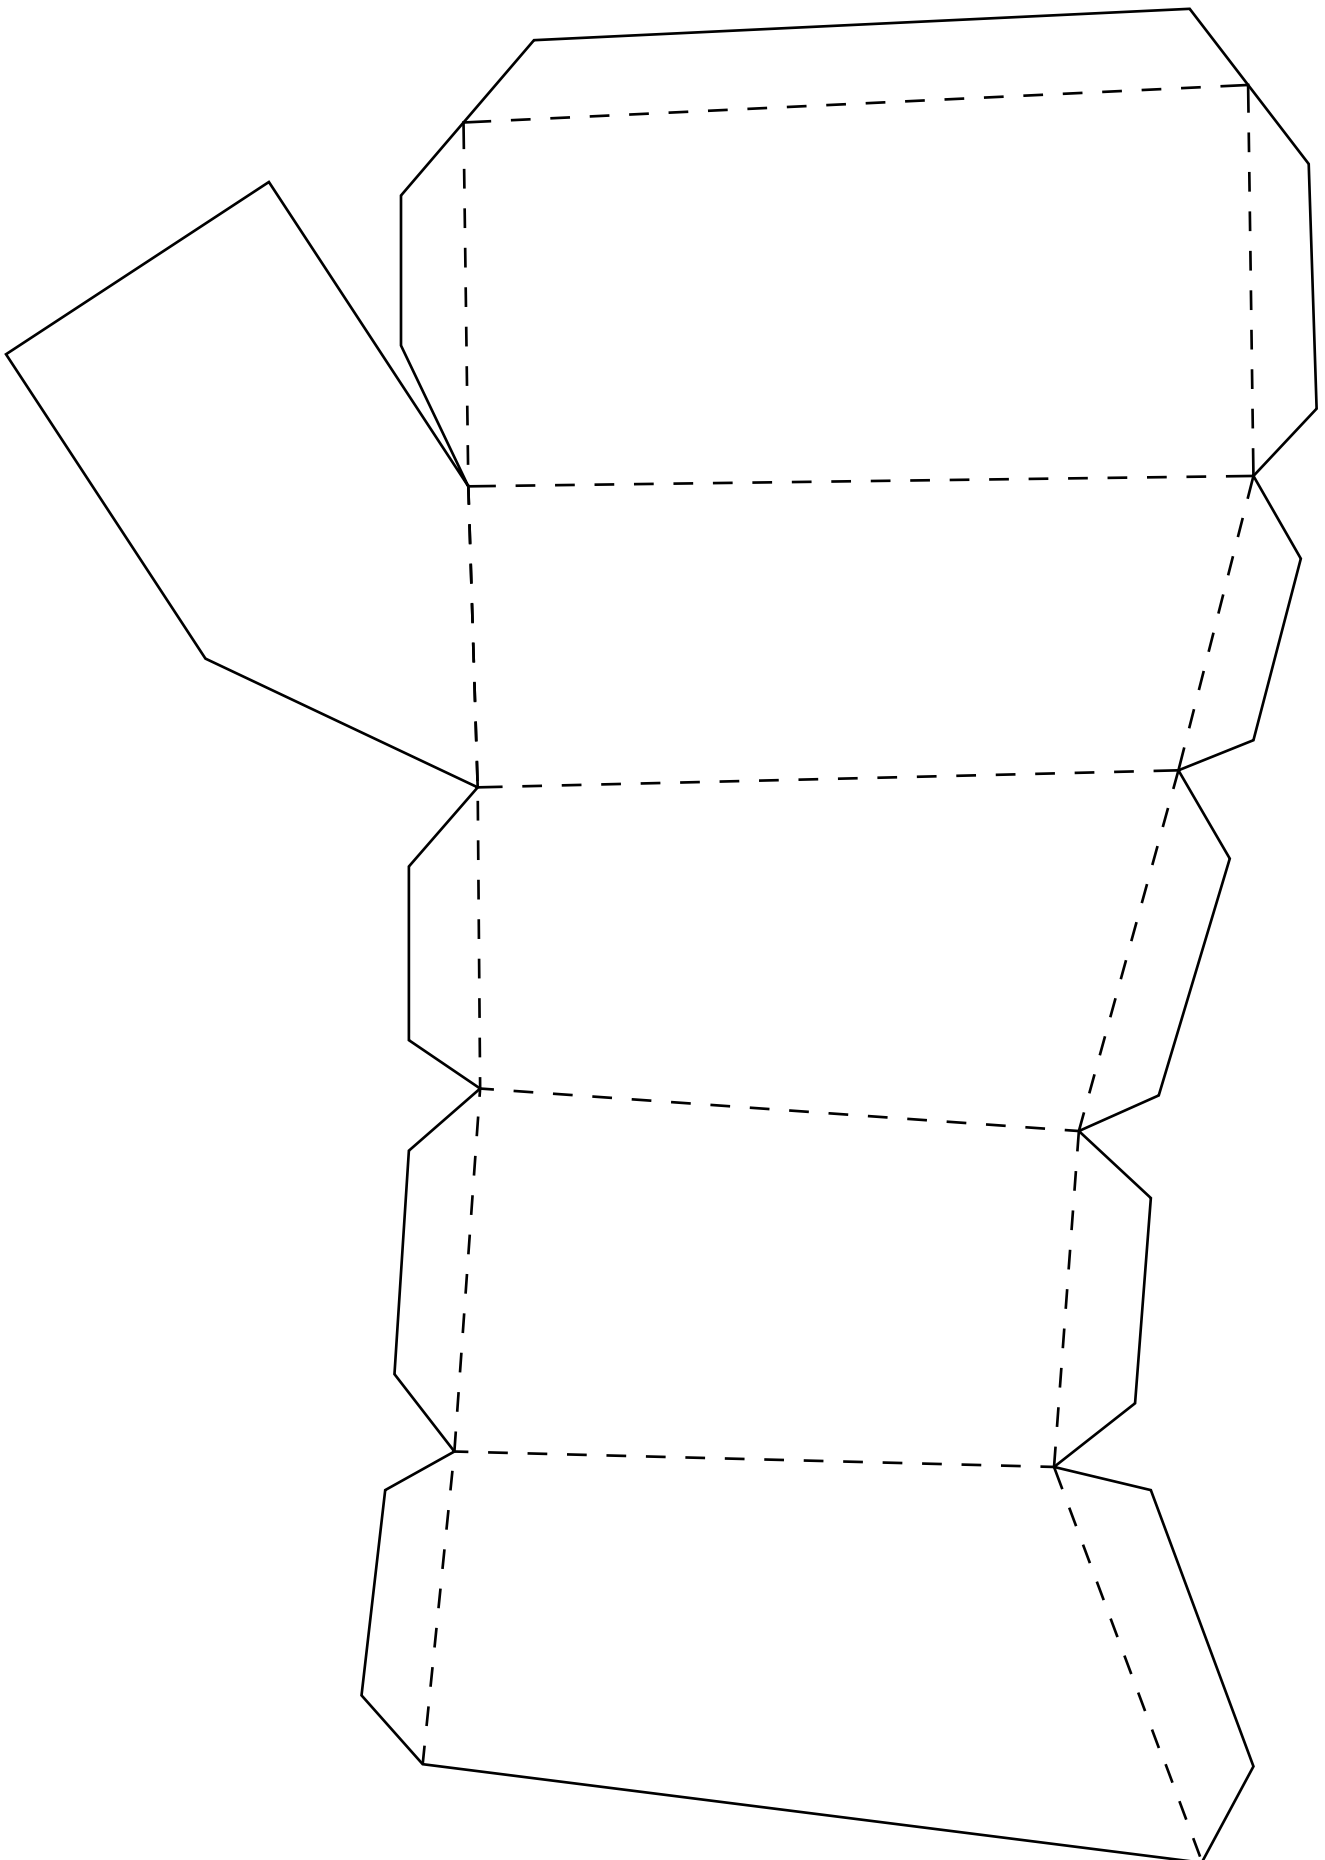

Finally add the front facade.

Congratulations, you did it!
To share your artwork with others,
please see the last page.

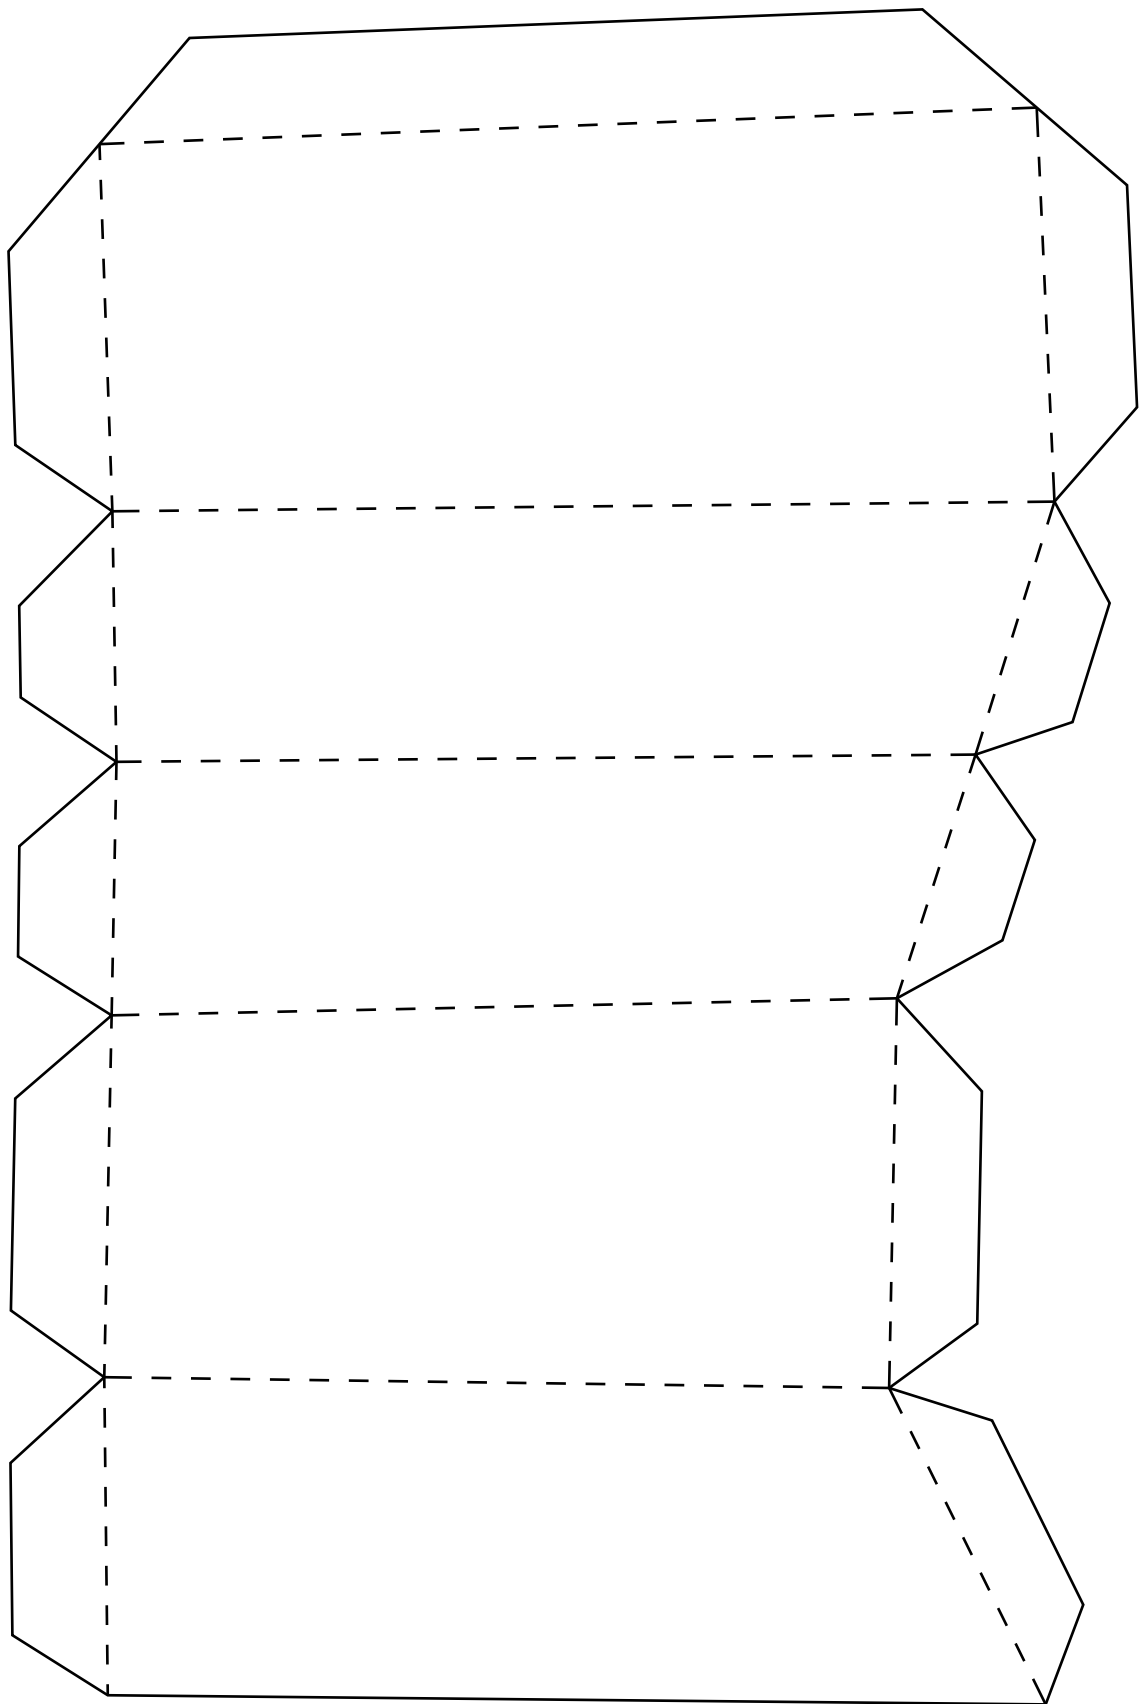

A (left facade)

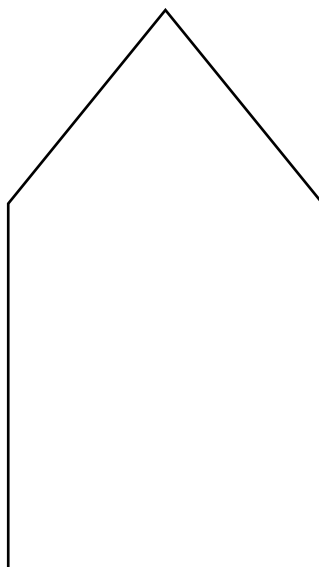

B (central facade)

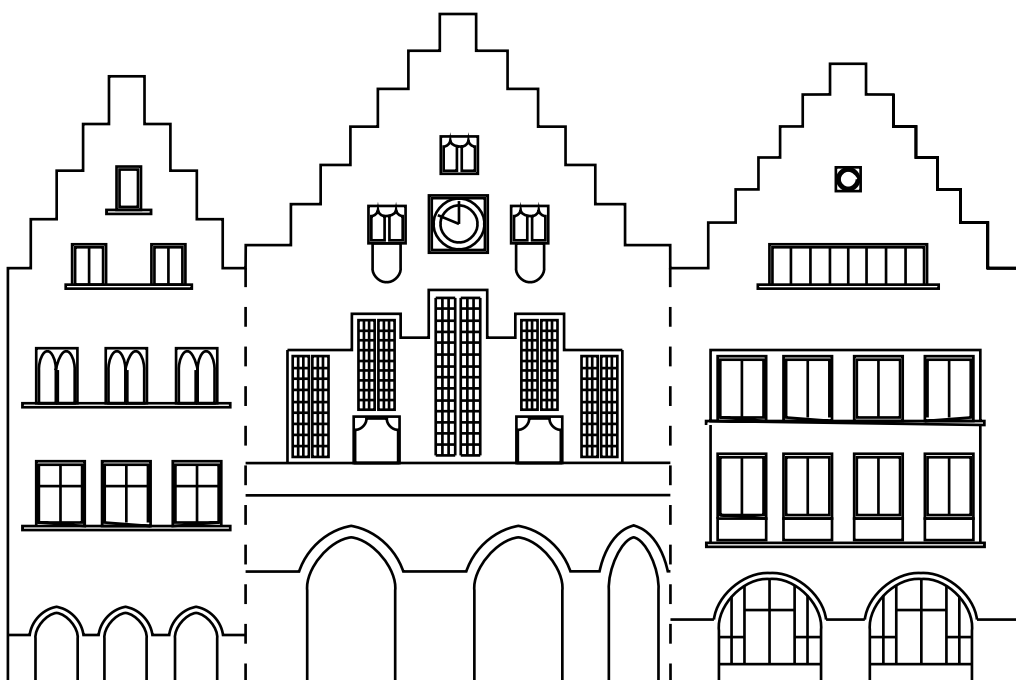

C1 (right facade)

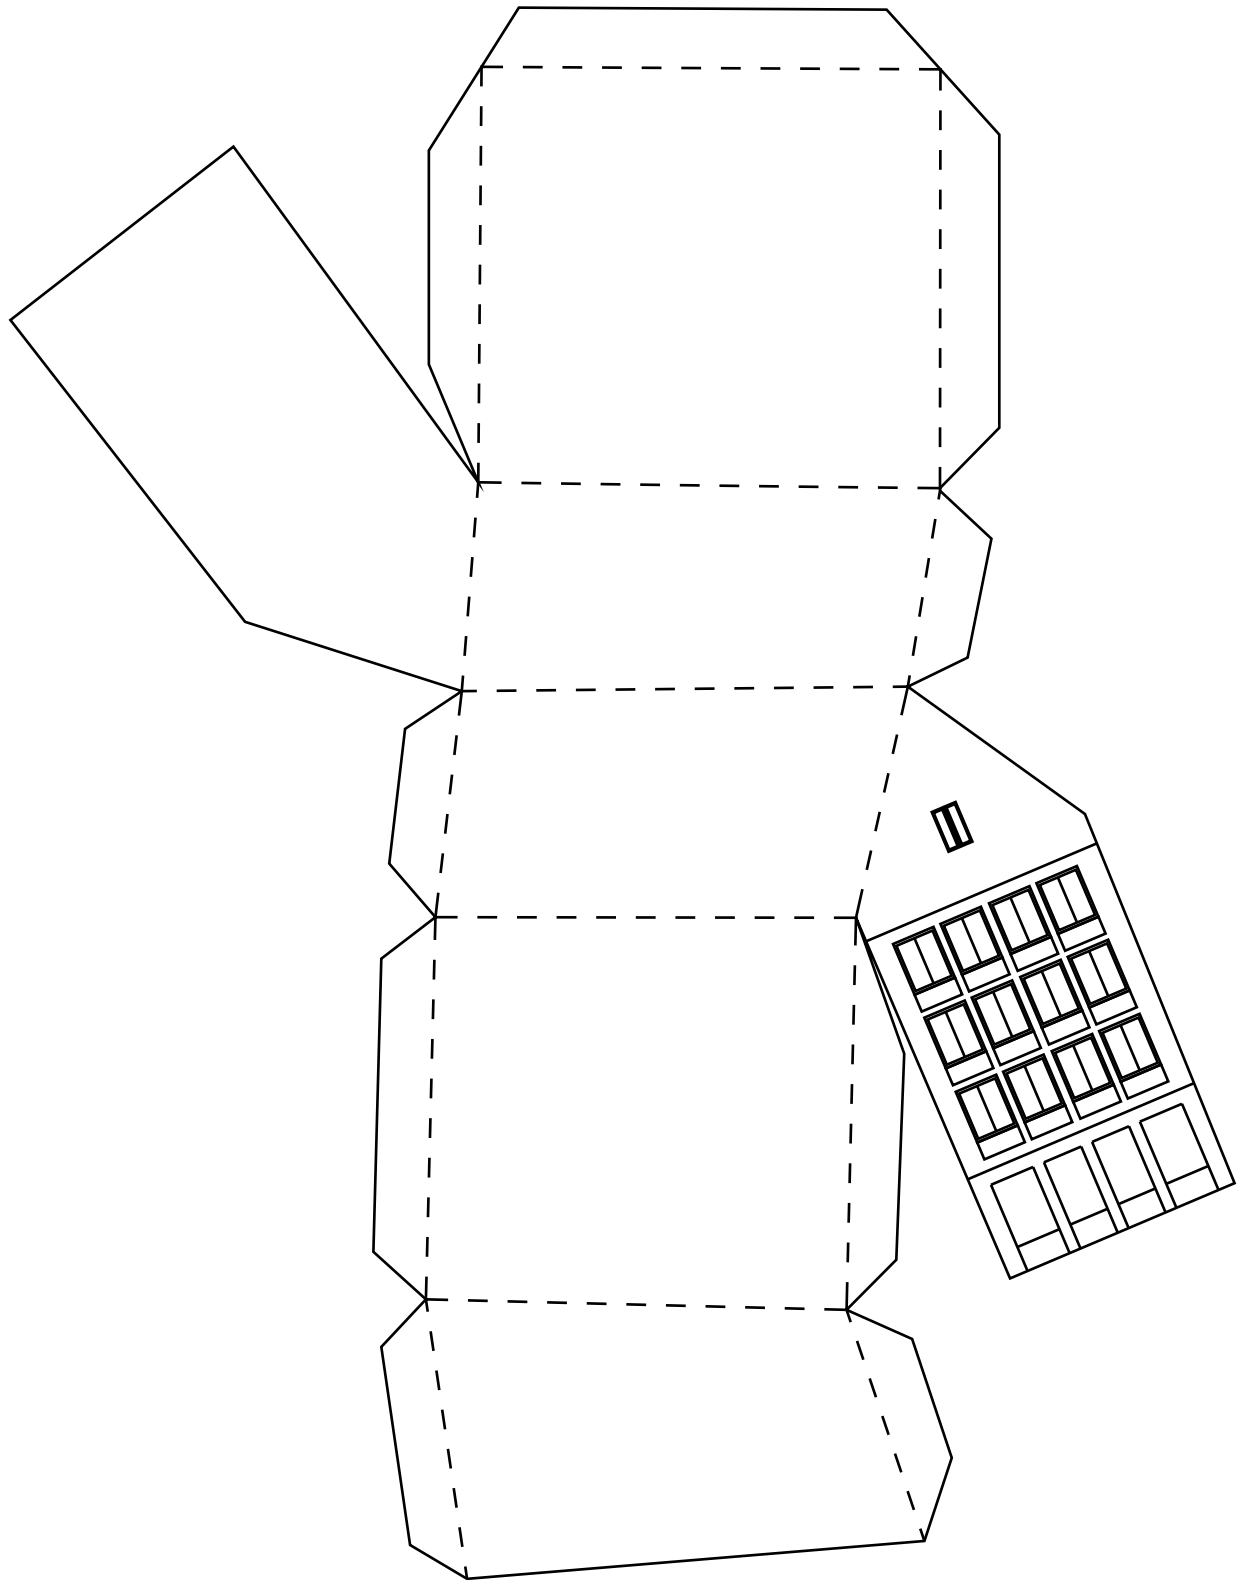

C2 (main right facade)

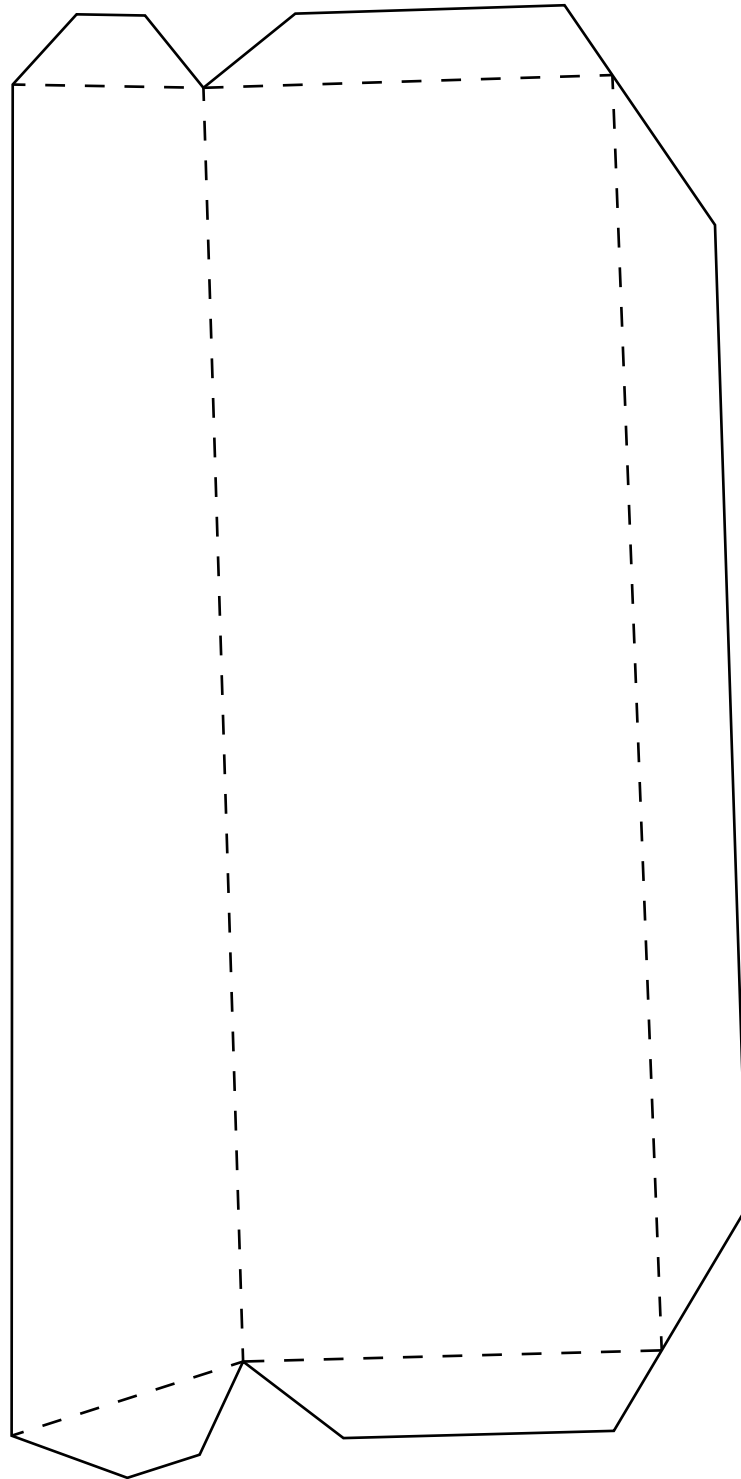

G (front facade)

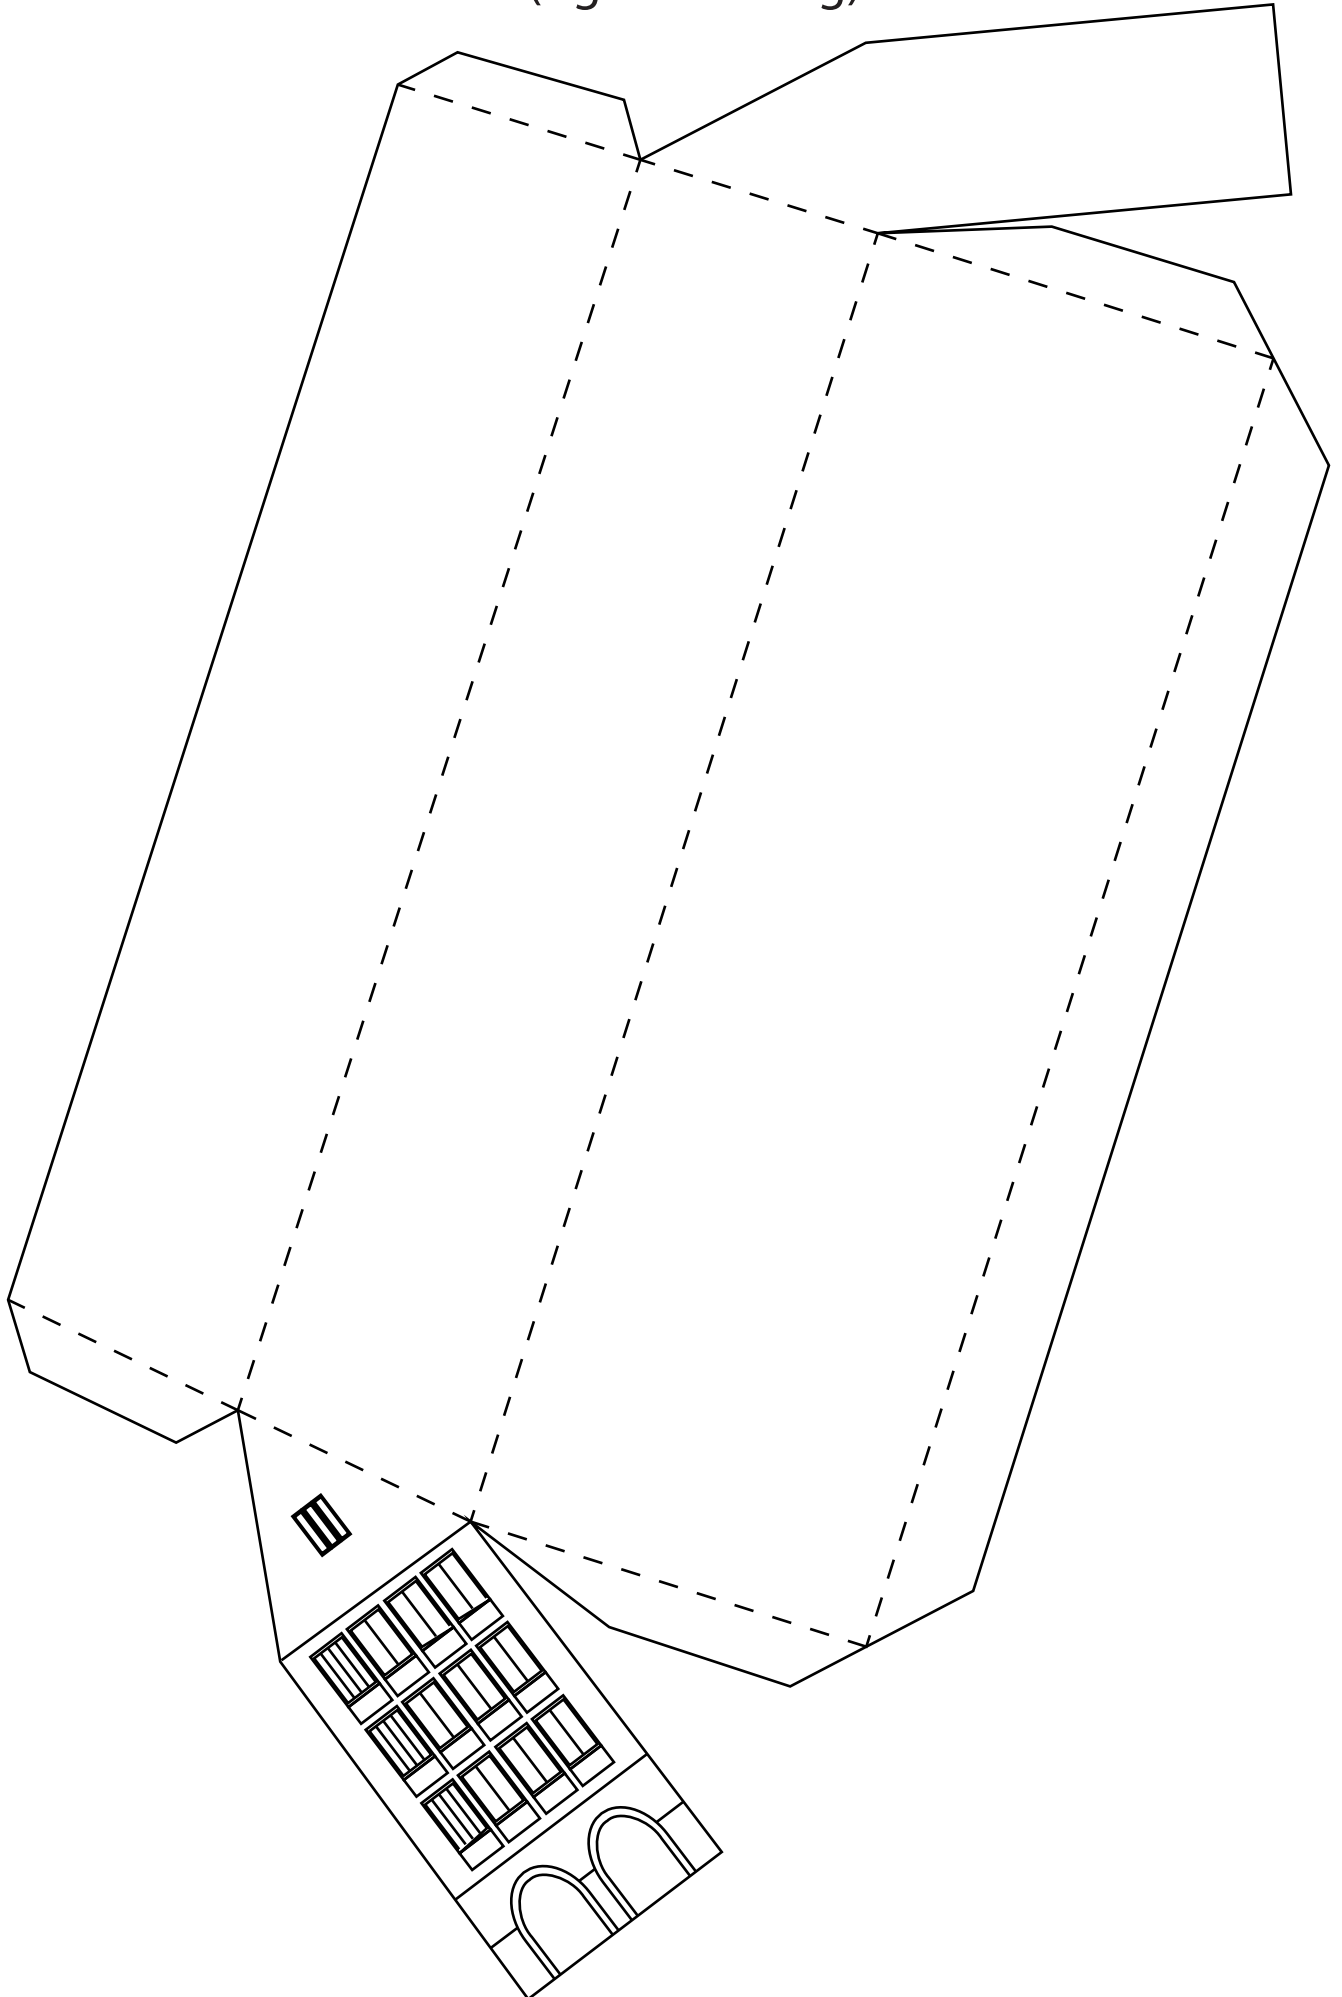

D (left building)

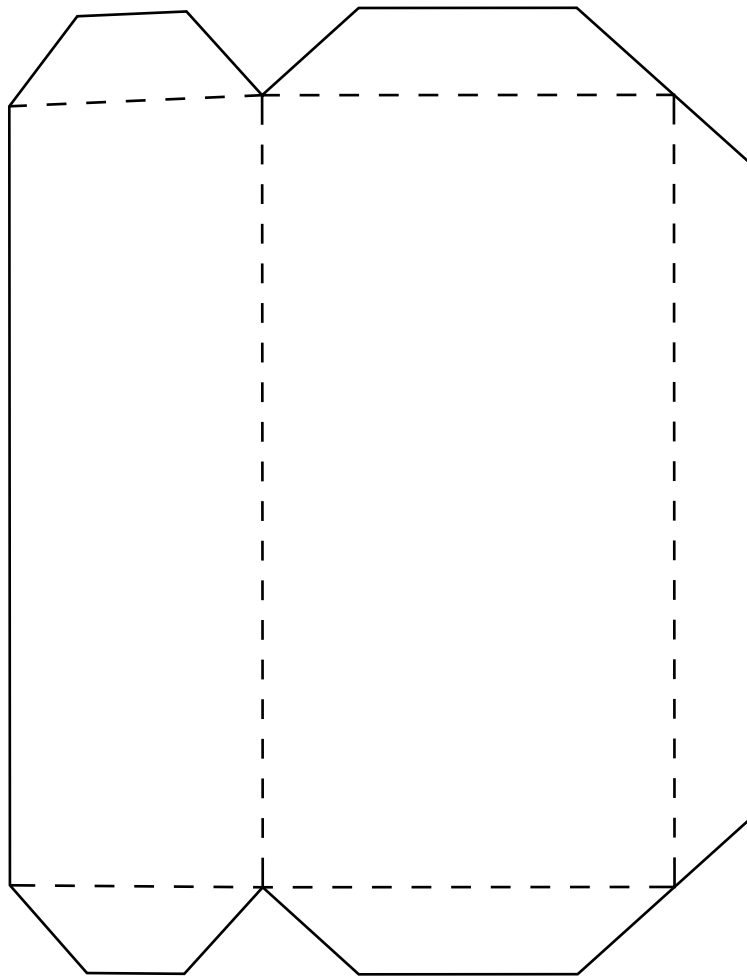

E1 (right building)

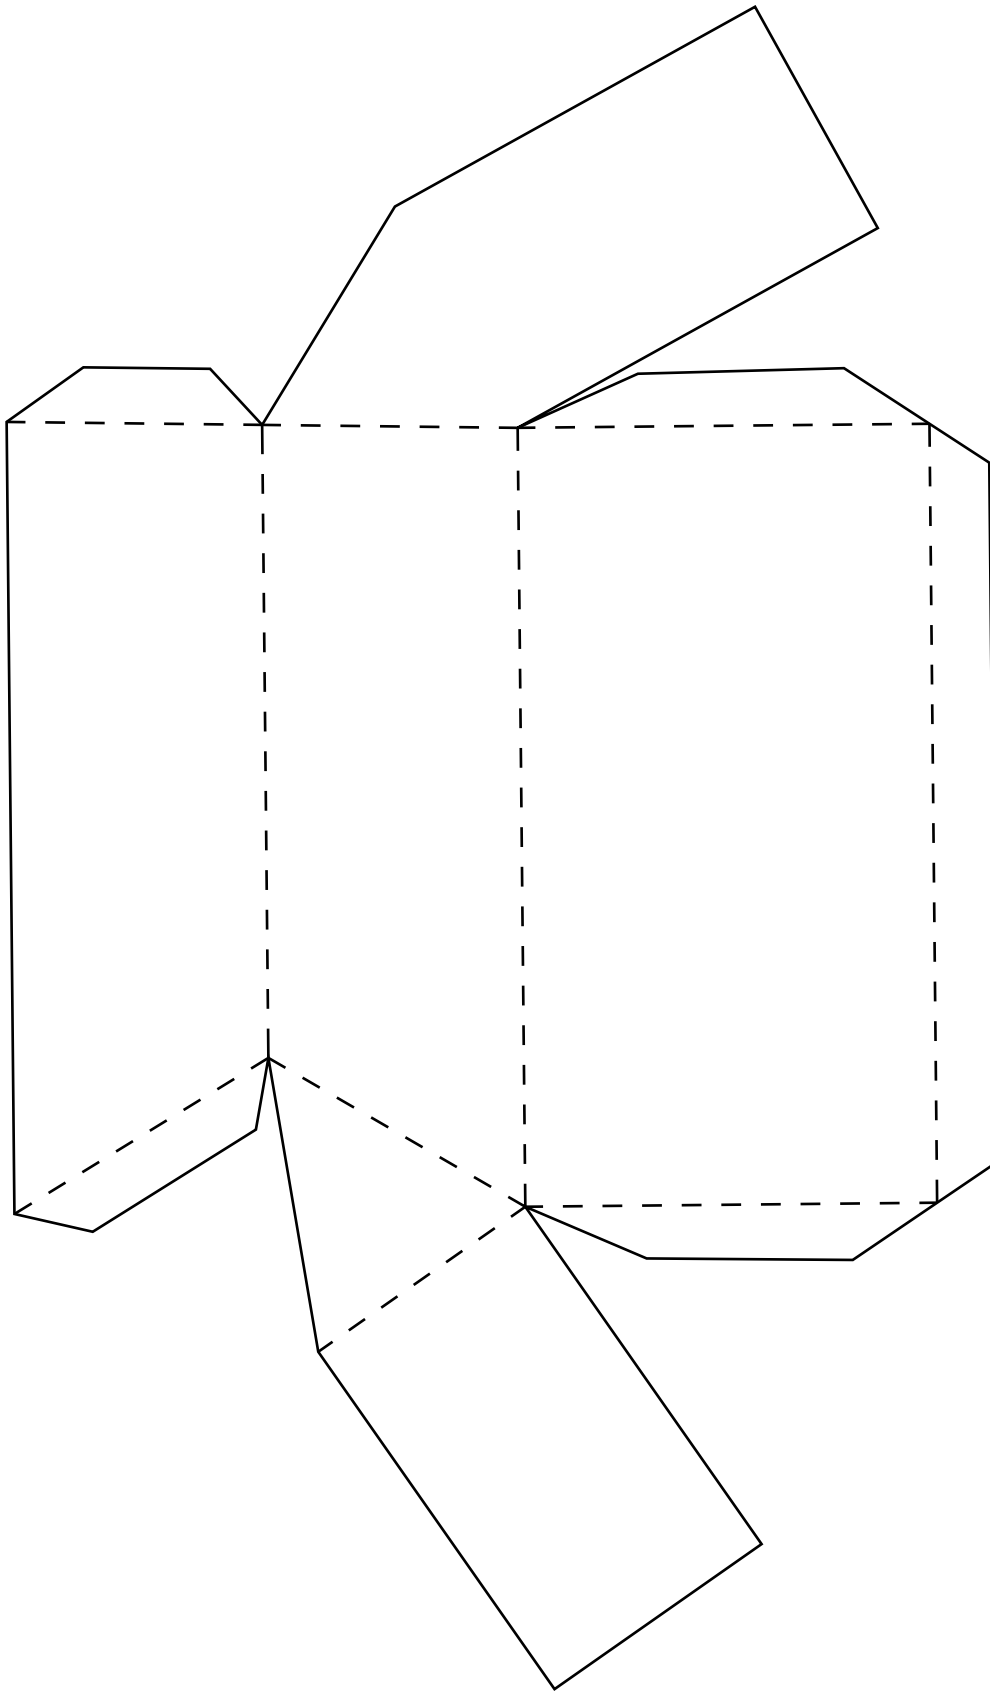

E2 (right building)

F1 (back building)

F2 (back building)

ARCHITECTURE

with sauce

This tinker set has been provided by ARCHITECTURE with sauce, a project dedicated to offer crafting models.

Be sure to upload your building to the official gallery after you decorated it with colors or glitter: www.craftingmodels.com/upload/

You can share your artwork on social media using the tags #craftingmodel #frankfurt and #germany.

Hungry for building more? You can download additional crafting sets directly online at www.craftingmodels.com
